

GR COROLLA

International material shown, and local spec may vary.

RULE THE ROAD

THE GR COROLLA IS A HATCH MADE IN HEAVEN AND HERE TO GIVE YOU ONE HELL OF A RIDE

Experience exhilarating performance and superior control with Gazoo Racing's latest speed enthusiast, delivering 210 kW straight to your fingertips, available in both AT and MT. This power is harnessed by the GR-tuned suspension and the state-of-the-art GR-FOUR all-wheel drive system.

Ignite your drive with sport mode at the flick of a switch, a precise mechanical handbrake, and a six-speed manual transmission built for pure driving passion. Rooted in the same performance DNA as the GR Supra, GR 86 and GR Yaris, the GR Corolla delivers race-inspired performance without sacrificing everyday comfort.

MODEL LINE-UP:
GR Corolla 1.6T Circuit MT
GR Corolla 1.6T Circuit AT

ENGINEERED FOR GOOSEBUMPS

MODEL SHOWN: GR Corolla 1.6T Circuit AT

Feel the surge of instant acceleration and the confidence to overtake with ease. The GR Corolla's turbocharged system puts 210 kW of power at your command and delivers 400 Nm of torque across a wide rev range, so you get responsive performance whenever you need it. All from a compact 1.6ℓ engine built for efficiency and excitement.

Paired to a short-throw 6-speed Intelligent Manual Transmission with selectable rev matching for perfectly executed heel-and-toe downshifts, the GR Corolla powers to a top speed of 230 km/h. Together with an average fuel consumption measured at 8,4ℓ/100 km, this hot hatchback is just as fuel-efficient as it is fast.

The GR FOUR permanent all-wheel drive system generates limpet-like grip for complete control across all road surfaces. The front and rear torque split defaults to 60/40 in normal mode and can be adjusted to a more playful 30/70 as well as the optimal setting for track driving at 50/50.

For even more extreme tractive ability, the Circuit edition is equipped with torque-sensing front and rear limited slip differentials that optimise grip and power distribution. Locking you into the GR Corolla cornering limits is a custom light-weight MacPherson strut front suspension setup, paired with a rear trailing double wishbone configuration.

ALL THE POWER. ALL THE CONTROL. ALL THE EXCITEMENT.

STYLED FOR SPEED

MODEL SHOWN: GR Corolla 1.6T Circuit AT

THE GR COROLLA IS PRECISION BUILT BY HIGHLY-TRAINED CRAFTSMEN IN THE GAZOO RACING MOTOMACHI FACTORY IN JAPAN.

Get the excitement of driving a hatch that looks as powerful as it feels. Before you even get behind the wheel, the bold silhouette, refreshed grille, sharper rear bumper, fierce spoiler and 18" lightweight alloys with 235/40/18 tyres set the tone.

Built the motorsport way, every design detail serves a purpose because function always dictates form:

- A uniquely patterned carbon-fiber roof that adds lightness, rigidity and a lower centre of gravity for improved lateral dynamism.
- Newly designed bi-LED headlamps surrounding the GR black high-gloss front grille that

automatically adjust for brightness when oncoming traffic is detected (complemented by fog lamps that are integrated into the LED brake lamps at the rear).

- A power-enhancing, free-flowing triple-pipe exhaust that emphasises its sporty rear end and ensures the GR Corolla sounds just as good as it looks.
- Front and rear bumper ducts and GR-branded side rocker panels* that reduce speed-sapping drag.

*Available on selected models.

RALLY READY INSIDE AND OUT

INTERIOR

Experience speed without sacrificing comfort. Settle into the GR Corolla's intuitive, driver-oriented cabin and feel instantly aligned with the road. With a six-way adjustable seat designed to personalise your posture, you get a race-ready feel that still pampers. Choose GR Sport fabric in the Core model or GR Sport Synthetic Leather & Suede in the Circuit model.

There's the 7" digital audio system, a wireless charger and smartphone capability. Then there's state-of-the-art features like Adaptive High Speed Cruise Control, Reverse Camera and more to keep you in comfort and under control.

Keyless entry gets you in and the GR Push Button gets you going. From there, your mood and the road dictate 'Eco', 'Normal' or 'Sport' from the Drive Mode selector.

A Corolla-first in South Africa has the Heads-up display (available in the Circuit edition) that provides you with necessary information within your field of view.

Thanks to Toyota Connect, those chasing the likes can upload their content directly from the car, enable Wi-Fi for up to eight mobile devices at a time, record travel logs, manage key vehicle ownership attributes and book services online.

True to the Corolla way, total passenger practicality comes standard. All four doors have a bottle-sized aperture. The centre console can be used as an armrest between the two front seats, and when it comes to transporting longer items, the folding rear seat back splits 60/40 to reveal a 213 litre-sized boot.

HIGH PERFORMANCE PROTECTION

Know that you're protected with driver, front passenger, side, curtain and driver-knee airbags. As is the fitment of Anti-Lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Vehicle Stability Control (VSC) and Hill-Assist Control (HAC).

Every model comes equipped with Toyota's latest Safety Sense Package that includes a Pre-crash System that warns the driver of oncoming vehicles or pedestrians and automatically intervenes if the driver doesn't brake in time.

Lane Trace Assist that detects lane deviation and automatically corrects steering while alerting the driver with a buzzer.

Park Distance Control (PDC) in both the front and rear guarantees accident-free parking. Emergency Locking Retractor (ELR) on the seatbelts that allows for easy extension until a sudden stop or impact at which point it will tighten to protect the passenger.

ISOFIX mounting brackets to secure baby seats to the rear seat, while the rear doors are fitted with child locks. Remote central locking and an anti-theft system that activates automatically once the vehicle is wirelessly locked by the key fob.

At long last, the hottest hatch on the market is available in South Africa.

GET READY FOR THE RIDE OF YOUR LIFE.

TOYOTA ENVIRONMENTAL CHALLENGE 2050

AT TOYOTA, CREATING TECHNOLOGICALLY ADVANCED VEHICLES ISN'T OUR ONLY PRIORITY; WE'RE COMMITTED TO LOWERING OUR ENVIRONMENTAL IMPACT THROUGHOUT OUR ENTIRE PRODUCTION PROCESS. HOW? BY SETTING OURSELVES SIX CHALLENGES THAT WILL SEE US REACH A TRULY WORLD-CHANGING GOAL - A POSITIVE ENVIRONMENTAL IMPACT BY 2050.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

THE GR COROLLA HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire GR Corolla range has been designed to have very low CO₂ emissions.

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO₂ emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environment is important. We have two measures to achieve this - comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

IN-CAR WI-FI*

Connect to Wi-Fi

GPS LOCATOR

Always know your vehicle's GPS location

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/owners/genuine-parts

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration – you can enhance the appeal and functionality of your GR Corolla without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your GR Corolla by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND

TOYOTA FINANCIAL SERVICES

TOYOTA FINANCIAL SERVICES

There is no 'one-size-fits-all' when it comes to vehicle finance and insurance, there is only you. With fast, flexible and convenient services we will structure the perfect GR Corolla deal for you.
